📁 Project

Clinic Appointment Management System (CRUD Project)

Developed a web-based system for managing clinic appointments using HTML, CSS, JavaScript, Node.js, Express, and MySQL

Implemented CRUD operations:

- Create → Book new appointments with patient & doctor details.
- Read → View all scheduled appointments in a list/table.
- Update → Modify appointment details (date, time, doctor).
- Delete → Cancel an appointment.

Designed a simple and responsive user interface for patients and staff.

E-commerce Website (Amazon-inspired)

Technologies: HTML, CSS, JavaScript, Bootstrap

- Built a fully responsive e-commerce website with product listings, navigation menus, and shopping cart interface.
 - Implemented dynamic UI interactions using JavaScript for improved user experience.
 - Applied Bootstrap for responsive design and cross-device compatibility.
 - Designed a structured, scalable frontend layout with focus on user-friendly design.
